## Conversation Starters

Hobbies, sports, and games are some of the most carefree, fun-loving times in our lives, and an excellent subject for reminiscing. In order to help access these memories you may need to start the conversation with specific questions. The following suggestions are a good starting point.

### "What" Questions

What did you strap these roller skates onto?  
What type of noise did a cap gun make?

### "Where" Questions

Did you ever float in a lake on an old inner tube?  
Where did you used to go fishing (skiing, tobogganing, hiking)?

### "Who" Questions

Did you ever ride in a wagon? Who pulled it for you?  
Who in your family used to knit? Did they have a basket like this one?

### "When" Questions

Tell me when you ever got someone's autograph?  
Do you remember ever trying to play a kazoo? When was that?

### "How" Questions

How many times were you able to hit the Paddleball in a row?
